APPLICATIONS BUILT

The Simpsons Trivia Game | [View on GitHub Pages](#) | Sole Developer & Designer

- Trivia game using JavaScript for logic, jQuery to manipulate HTML, and CSS for styling.
- Questions and timers are dynamically adding using logic in jQuery and Javascript.

Train Scheduler | [View on GitHub Pages](#) | Sole Developer & Designer

- Train schedule application that incorporates Firebase to host arrival and departure data. Retrieves and manipulates time data with Moment.js. This app provides up-to-date information about various trains, their arrival times and how many minutes remain until arrival.
- Trains are dynamically added and removed both in the browser and in Firebase by user input. Styling done using the Bootstrap library.

Bamazon | [View on GitHub](#) | Sole Developer

- Amazon-like storefront using Node.JS and a MySQL database. The app takes in orders and depletes stock from the store's inventory. In addition, the app provides the option of updating the MySQL database and issuing inventory reports.
- This is a Node.JS app that incorporates a MySQL database and uses the MySQL, Inquirer, and Table Node modules.

RELEVANT WORK EXPERIENCE

Battle Media Lab, Boca Raton, FL - *Junior Web Developer*
